CERTIFICATE OF CORRECTION

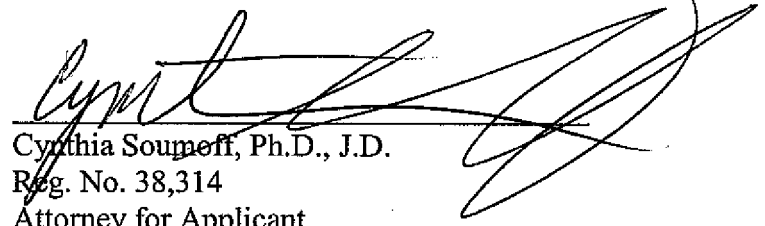

Sir:

It has been ascertained that granted U.S. Patent No. 7,618,946 was printed with an error. In claim 1, the structure of formula 1 is incorrect. The 2-position of the galactose ring is shown as being a methyl group when it should be a hydroxyl group. In order to correct the error, the enclosed Certificate of Correction (Form PTO/SB/44) is submitted.

Claim 1 was first amended in the preliminary amendment filed on February 28, 2008, to provide the correct structure. This corrected claim appeared in the last filed Amendment of December 29, 2008. Therefore the error appearing in the patent was made on the part of the Patent and Trademark Office. Since this was an error on the part of the Patent and Trademark Office, it is believed that no fee is required. However, the Commissioner is authorized to charge any deficiency or credit any overpayment to Deposit Account No. 13-2165.

Respectfully submitted,

Dated: December 17, 2009

Cynthia Soumeff, Ph.D., J.D.
